

Press release of the Regional Women's Lobby (RWLSEE) for dangerous events in Cetinje, Montenegro

September 5, 2021

There is no end to the meddling of Serbia in the neighboring countries. The act of aggression today in Montenegro through the Serbian Orthodox Church in Cetinje, in the capital that belongs to the Montenegrin Orthodox Church, aims at dangerous destabilization. Vucic is no different from Milosevic, he attends his hegemonic agenda. The Regional Women's Lobby in Southeast Europe (RWLSEE) is on the side of the people of Montenegro, our support for them is support with justice and an identity that no one can blackmail. We call on the international community to intervene in Cetinje, to stop this destabilization, which is dangerous not only for Montenegro but also for the entire Balkan region. We call on citizens to refrain from any kind of violence and not to fall prey to provocations. Citizens, of all faiths and nations and political options, should together contribute to the preservation of peace, stability and multiethnic harmony and the western Montenegro.

Edita Tahiri, Chair of RWLSEE
